

SCHOOL OF DISTINCTION REPEAT WINNERS OVER 5 YEARS

In order to win a School of Distinction award, student achievement must improve over a five year period of time. Additionally, that improvement must be in the highest 5% across the state in comparison to schools at their level. There are 102 schools who have sustained and extended that high level of improvement beyond those five years and have been recognized more than once for their improvement. Below, please find a list of "repeat winners" - those schools who won the School of Distinction award more than once and the year in which they won that award. You will note the following:

7 schools won the award 4 times, 22 schools won the award 3 times, 73 schools won the award 2 times
